2 La estonteco de la internacia komunikado en Eŭropo en la 21-a jarcento (2001-2020) - konferencraporto -

Werner Bormann

Pri tiu temo okazis konferenco de la 4-a ĝis la 7-a de oktobro 2001 en la Eŭropa Akademio en Otzenhausen (en la germana Sarlando, proksime de la franca limo). En ĝi partoprenis rondcifere 40 sciencistoj ĉefe de mezorienteŭropaj universitatoj kaj el Germanio. Ili raportis en proksimume 30 prelegoj pri la temo.

Pritraktitaj estis la pozicioj kaj la ŝancoj de difinitaj eŭropaj lingvoj en la kunkreskanta Eŭropa Unio. Tio okazis, grave, kun elmonro de multaj statistikoj pruvantaj signifoplenajn konstatojn. Fariĝis videble ke la uzo de la angla lingvo kreskas. Kontraŭe al tio la germana lingvo daŭre perdas terenon. Al tiu perdo esence kontribuas germanaj sciencistoj (kaj altaj

ŝtatoficistoj kaj politikistoj) per tio, ke ili ĉiam kaj ĉie uzas la anglan lingvon.

La densan interplektitecon de lingvo kaj kulturo pruvis multaj ekzemploj: tute ne sufiĉas povi apliki fremdan lingvon, sed la parolanto devas ankaŭ scii, kiel oni kondukas "ĝuste" en la fremda ĉirkaŭaĵo. Tial lingvolernado estas tre ampleksa tasko.

El tio rezultas, ke ĉiam restos mankhava la lernado de plejeble multaj lingvoj per plejeble multaj homoj. Tio turnis la atenton de la konferencanoj al la profesiaj lingvoperantoj. Multaj interesaj informoj traktis pri la laboro kaj la edukado de tradukistoj. La necesaj rendimentoj de tiufakaj profesiuloj estis esenca parto de la konferenca programo.

Nur finlernintaj scipovantoj de fremdaj lingvoj kapablas plenumi la postulojn pri precizeco, kiuj estas ne eviteble bezonataj ĉe fakaj tekstoj. Ekzemplo estu la angla: la angla lingvo uzata en la Eŭropa Unio pli kaj pli diferencas disde la Oksforda angla lingvo (same la "angla" parolata de neanglaj sciencistoj kiam ili prelegas). La angla lingvo evoluas en Britujo. Kaj apud tio evoluas eŭropa angla lingvo, kiu estas firme ligita al la aliaj lingvoj de la Eŭropa Unio (ĉefe kaj tute strikte al la franca lingvo en ilia komuna registro Eurodicautom). Planlingvoj ne ludis iun rolon en la konferenca programo. Ili (pli precize: Esperanto) estis nur malofte kaj marĝene menciitaj. Sed la temo estis de tempo al tempo tuŝita dum la interparoloj ĉe la manĝotablo kaj dum la vesperaj konversacioj. Multaj partoprenantaj sciencistoj ja estis familiaraj kun Esperanto kaj la problemaro de la interlingvistiko kaj ili konis persone esperantistojn en siaj hejmlandoj.

Je la fino de la konferenco, rondo de sciencistoj diskutis antaŭ la mikrofonoj de la Sarlanda Radio sub gvido de la konferencestro prof. d-ro Wolfram Wilss (kio estis emisiita je la 18-a de novembro). Li atentigis min, de mi demandita pri la ŝancoj por solvo de la grandaj problemoj de la komunikado per neŭtrala lingvo (planlingvo, Esperanto), pri la parenteza aldono en la titolo de la kunveno: 2001-2020. La estonteco restas en la malhelo, sed certa estas la elstara signifo de profesiaj tradukistoj.
